of Colleges  
and Secondary Schools**

THE NORTH CENTRAL ASSOCIATION QUARTERLY is published by the North Central Association of Colleges and Secondary Schools in Summer, Fall, Winter, and Spring. It is the official organ of the Association, and contains the proceedings of the annual meeting of the Association, together with much additional material directly related to the work of the Association. The regular subscription price is \$4.00 a year. The July number is priced at \$1.75; the others, \$1.00 each. All members of the Association—institutional and individual—are entitled to receive the QUARTERLY as part of their annual fees. A special subscription price of \$3.00 per year is permitted to school libraries, college libraries, and public libraries and to individuals connected with North Central Association membership institutions. Subscription orders may be sent to the Executive and Editorial Office.

# Report of the Secretary of the Association

---

THE THEME for this annual meeting of the North Central Association is "Quality Education for All." Here is indeed the challenge facing educational institutions today—the challenge of maintaining educational quality in the face of greatly increasing and rapidly changing demands.

What part can the North Central Association play in meeting this challenge? Does this Association possess the power of adaptability to changing times? Can it modify its approach as required by the changing tasks of education so that it may continue to be a force of growing effectiveness as time moves forward?

Some things are clear. Accrediting today must be viewed in a larger context than it has been viewed in the past. The accrediting agency can no longer fully discharge its responsibilities for the improvement of education merely by holding to a set of arbitrarily-conceived minimum standards to which institutions must conform. It must make certain that in its approach to institutional evaluation it makes use of the accumulating knowledge in the field of evaluation in general.

Also, the day has passed when the primary need was the establishment of a minimum level of educational adequacy for our institutions. Our educational system has attained a level of maturity which justifies us in changing our emphasis from a restrictive insistence on minimum standards—which is essentially a negative approach—to a positive, constructive, forward-looking program which emphasizes educational advance at all levels and without regard to the level of attainment already reached by an institution. Even the best of educational institutions can improve, and it must be our function to help them do so.

It follows from this that the accrediting agency can no longer discharge its responsibilities merely by conferring or withholding accreditation from institutions. For one thing, this would encourage improvement only up to the point of accreditation, and beyond that point the Association would have little influence. Growth, not minimum status, must be our goal.

It has become clear that the situation today places on this North Central Association the responsibility not only for a sophisticated approach to institutional evaluation and accrediting, but also the responsibility for devising and conducting programs which will contribute to the improvement of education without necessary reference to accreditation.

I should like briefly to review with you some of the activities of the Association in the past year, and to suggest some directions for the future in the light of their relevance to these considerations. We shall look at a few of the highlights in the work of each of the three Commissions as well as the activities of the total Association.

## COMMISSION ON COLLEGES AND UNIVERSITIES

The world of higher education is changing its face with bewildering rapidity. Diversification of objectives among and within institutions continues to grow. In response to the requirements of the times, institutions of higher education are extending their programs into new areas and to higher degree levels, and new institutions of varying function are being created.

It is the responsibility of the Association, through its Commission on Colleges

and Universities, to furnish guidance for these developments. In response to this need the Commission is rapidly extending its consultant services. During the current year it will have 175 people in the field working with colleges and universities in a consultant or evaluative role.

To staff adequately its growing program of consultant services, the Commission recognizes the need to continue its Leadership Training Project, a program under which the ablest of the young administrators in our member colleges and universities are brought together for a program of guided field experiences and seminars. This project, carried on with Carnegie Corporation support, is now in its fourth year of operation.

The Commission has adopted some new statements of policy. One of these is designed to give guidance to institutions extending their programs to the doctoral level as well as to the examiners who will be concerned with the evaluation of such programs.

The Commission has, at this meeting made provision for a listing of what are to be called Associated Institutions.\* These are institutions that are actively working toward accreditation with the assistance of the Commission's staff and consultants. Inclusion of such institutions on the Associated Institutions list gives them a status which they deserve by virtue of moving actively toward accreditation, and which we hope will be helpful to them in their relationships with donors, faculty and students.

For some years now the Commission has been involved in a program for the systematic and periodic review of its member colleges and universities. Significant steps were taken this year to strengthen that program in order that it may be more useful both as a device for assuring the Commission that its member institutions are maintaining their strength and as a means for stimulating institutions to improve their programs; but the Commission is not

satisfied with this program, and a committee to study it and bring in recommendations for improvement has been appointed.

Perhaps the biggest news coming from the Commission on Colleges and Universities relates to the plans for a completely new look at methods of evaluating colleges and universities. This planning reflects recognition of the need greatly to broaden the range of institutional characteristics looked at when an evaluation is made. It contemplates the inclusion not only of what might be called status characteristics—such things as training and experience of the faculty, organization of the curriculum and instructional program, and books in the library, but it will also include consideration of the dynamics of the institutional situation—the ways in which decisions are made, interpersonal relations, the various forces and pressures that are operative—and other intangibles of which we are aware but which have not been brought into the evaluative procedures in any systematic fashion.

#### COMMISSION ON SECONDARY SCHOOLS

There is clear awareness in the work of the Commission on Secondary Schools of the changes that are taking place in the educational scene and of the obligation of the Commission to concern itself with these developments. Illustrative is the careful consideration being given to the possible desirability of developing criteria and procedures for the accreditation of junior high schools.

The new statement of Policies and Criteria for the Approval of Secondary Schools, which was approved in the spring of 1960, was printed and distributed at the beginning of the current year. Except for those criteria designated "Progress Criteria" which are to be put into effect gradually, the new regulations become effective in 1961-62.

They provide for strengthening of the secondary schools in a number of ways; for example, in the preparation of the teachers and of the administrative staff, in the library, in curriculum, and in

\* This title subsequently was changed to "Candidates for Membership."

guidance. Workshops widely distributed throughout the nineteen-state area have been held for the purpose of acquainting the high schools with the new requirements.

A striking example of service going far beyond the boundaries of the North Central Association is the work of the Commission on Secondary Schools in the accreditation of Dependents' Schools for the children of armed forces personnel abroad. At the time the North Central Association was asked to assume this responsibility the dependents' schools program was viewed as a temporary development, and there were only five schools, all located in Germany. Since that time this small-scale, temporary operation has grown to fifty-eight schools located in nineteen countries and enrolling 20,000 pupils!

Central to the work of the Commission on Secondary Schools are the state committees. These committees play a primary role not only in the Commission's accrediting activities, but also in those activities of the Commission which are of a stimulatory nature. Illustrative of the latter type of activity, but by no means a complete accounting, are the following:

In its work with the schools, the State Committee in Kansas concentrates each year on one area of activity of the secondary school. It builds its annual State meeting around this as a theme, and encourages the high schools to engage in self-studies in the area of emphasis.

The State Committee in Michigan has been working effectively to stimulate the interest of educators in that State in the problem of testing by external agencies, a topic discussed in the program last evening. One conference has already been held, and a State-wide conference is being projected.

In January of this year the Minnesota State Committee, in cooperation with the Minnesota branch of the National Association of Secondary School Principals, conducted a workshop on the problems of high school-college articulation.

In North Dakota the State Committee

is sponsoring pilot programs to develop better guidance services in the schools.

Annual conferences of school administrators were initiated in Oklahoma four years ago. Each conference deals with a specific area of secondary school work. They have been highly successful and will be continued.

The South Dakota State Committee is carrying on a project designed to provide improved educational opportunities for the gifted student.

West Virginia is engaged in a project involving the setting up of clinics on the problems of the gifted student. The pilot schools in West Virginia that are participating in the Superior and Talented Student Project of the Association's Commission on Research and Service are providing important resources for this project.

The State Committee of Wisconsin has this year sponsored seven conferences on high school-college articulation in science, mathematics, English and social studies.

These are illustrations of the effective way in which the Commission on Secondary Schools is reaching out into the local community, influencing school practice.

#### COMMISSION ON RESEARCH AND SERVICE

The Commission on Research and Service continues to pursue its widely ranging interests in both secondary and higher education. One of its major areas of concern is teacher education. Under the general auspices of the Commission's Committee on Teacher Education, the Subcommittee on Liberal Arts Education continues its excellent work in the encouragement of institutional self-study and professional growth of faculty members in liberal arts colleges. Annual workshops during the summer and a program of visiting by project coordinators during the year provide the mechanism for carrying on the activities of this Subcommittee.

Another of the concerns for teacher education is reflected in the work of the Subcommittee on In-Service Education of Teachers. This Subcommittee is now completing a study of the problems faced

by newly-engaged college faculty members.

Another aspect of the problem of teacher education is being explored by the Subcommittee on Human Relations in the Classroom. This group has conducted two studies recently. One is a study of the extent to which teacher education programs include a concern for human relations. The other has two major foci: (1) An assessment of the types of human relations situations encountered by teachers in their classrooms, and (2) an attempt to elicit from teachers information on the types of experiences they have had, including their college studies, which have contributed to their understanding of and ability to handle human relations problems. The report on these two studies will be disseminated in the fall.

Another area of concern of the Commission on Research and Service is the development of experimental units for high school programs. Outstanding in this connection is the work of the Subcommittee on Publications of Foreign Affairs which has had Ford Foundation support. Under the auspices of this Subcommittee a number of booklets for use in high school classes have been produced, the two most recent titles being *Africa and the World Today* and *The United States in the United Nations*.

Now in its fifth year, this project has conducted more than 300 teacher conferences over the nation. It has carried on cooperative projects with state departments of education. More than 4,000 secondary schools are involved.

The third major committee of the Commission on Research and Service is the Committee on Current Educational Problems. One of the current problems clearly in the forefront is the one which is the concern of the Subcommittee on Articulation of High Schools and Colleges. Currently this Subcommittee is exploring the problems posed by external testing in the secondary school.

Another current education problem is one with which the Subcommittee on Guidance and Motivation of Superior and

Talented Secondary School Students is concerned. It is under the aegis of this Subcommittee that the Superior and Talented Student Project, supported by the Carnegie Corporation, has been carried on for the past three years. Thirty thousand students in more than 100 high schools are involved in this Project. Materials developed through the Project have been made available not only to North Central Association schools but to schools outside our territory. Publications designed for a more general audience also have been produced. Some of the recent titles are available for examination and purchase at the publications exhibit outside this ballroom.

The Subcommittee on Television is another of those operating under the Committee on Current Educational Problems. This Subcommittee received assistance from the U. S. Office of Education in financing a special seminar on educational television in December 1959 and is producing and distributing a report on the seminar. The original report was not available in sufficient numbers to satisfy the demand, and a revised report has now been prepared. Three copies will be sent to each member institution within a fortnight.

The Committee is now developing a plan for regional and area conferences as media for the dissemination of information about educational television. A pilot conference of this type was held at Ohio State University in November 1960, and a summary of this conference will appear in the April issue of the NORTH CENTRAL ASSOCIATION QUARTERLY.

#### THE GENERAL ASSOCIATION

Last September the Executive Committee took an important step involving consolidation of some of the offices. The work of the General Secretary's office, of the Secretary of the Commission on Colleges and Universities, and the Editorship of the NORTH CENTRAL ASSOCIATION QUARTERLY and *NCA Today* have been brought together in office space provided by the University of Chicago.

The Executive Committee has also created the Committee on Publications and Information Service, which will serve as an advisory body on publications of the Association and as the Editorial Board for the *QUARTERLY* and *NCA Today*. The benefits of these moves toward the development of an organization headquarters are already becoming apparent, even though the changes were so recently made.

#### THE PATH AHEAD

It is clear that there is much unfinished business. Indeed, this organization will have lost its vitality and its usefulness on the day it ceases to be acutely aware of the difficulty and range of unsolved problems which it faces. But the general direction in which we should move is fairly well marked, I believe. This Association must continue to search for better ways of assessing institutional quality. This is a search that will never end. The search for better means of assessing quality will be best carried on in the broad context of the

total strengthening of the educational process rather than in the limited context of the means by which accredited status is determined.

It seems clear, too, that this Association will be maximally effective only if it continues to be alert to emerging needs which it might help to meet through the tremendous resources of its 450 colleges and universities and 3,600 secondary schools.

Finally, we must work very hard to discover the ways in which the several regional accrediting associations and the professional accrediting associations can work together in advancing the cause of good education, while retaining a sufficient measure of independence to enable them to operate effectively in their own areas. This will not be easy, and no one at this point is in a position to predict what form these inter-agency relationships may take; but inter-agency conversations looking toward this end are taking place, and this augurs well.

# Proceedings of the Commission on Colleges and Universities

---

## I. REPORT OF THE COMMISSION

AT THE ANNUAL MEETING of 1961 the Commission on Colleges and Universities considered the applications of newly applying and member institutions.

The Commission recommended that the following junior colleges be accredited:

Belleville Junior College, Belleville, Illinois  
Northwestern Michigan College, Traverse City, Michigan  
Saint John's College, Winfield, Kansas  
The School of the Ozarks, Point Lookout, Missouri

The Commission recommended that the following Bachelor's degree-granting institutions be accredited:

Defiance College, Defiance, Ohio  
General Beadle State Teachers College, Madison, South Dakota  
Immaculate Conception Seminary, Conception, Missouri  
Lakeland College, Sheboygan, Wisconsin  
Mount Marty College, Yankton, South Dakota

Olivet College, Olivet, Michigan  
Saint Meinrad Seminary, Saint Meinrad, Indiana  
Saint Thomas Seminary College, Denver, Colorado

The Commission recommended that the following member institution, formerly accredited as a junior college, be accredited as a Bachelor's degree-granting institution:

North Park College, Chicago, Illinois

The Commission recommended that the following member institution, formerly accredited as a Bachelor's degree-granting institution, be accredited as a Master's degree-granting institution:

Wisconsin State College, La Crosse, Wisconsin

All of these recommendations were accepted by the Association at its general meeting on Friday, March 24, 1961.

## II. LIST OF ACCREDITED INSTITUTIONS OF HIGHER EDUCATION

1961-1962

The institutions of higher education listed in the following pages are accredited by the North Central Association on recommendation of the Commission on Colleges and Universities, and by virtue of this fact are members of the Association.

The institutions on the list are of many different kinds: public and private, large and small, church-related and non-denominational, single purpose and multipurpose, liberal arts and specialized professional.

Some of these institutions serve a national or international clientele; others serve primarily students who reside in the community and commute from their homes daily. Some limit enrollments to one sex; others are coeducational. Some

are highly selective; others admit all who have graduated from high school. Some insist on high-level academic performance; others concentrate on the acquisition of vocational skills. Some are characterized mainly by a strong intellectual tone; others place more emphasis on social adjustment. Some allow a large measure of freedom to the students; others insist on close conformity to clearly established standards of conduct.

These are some of the differences among institutions. The North Central Association in its accrediting activities attempts to take into account this diversity among institutions of higher education and to evaluate each institution in terms of its purposes and with regard for its particular characteristics. This means that quality

cannot always be defined in the same terms but must be defined in terms of the purposes to be served. From this it follows that accreditation does not have the same meaning for all institutions, and that the programs in two institutions may be quite different and not at all comparable, even though both are accredited. What accreditation does indicate is that the institution, in the judgment of the North Central Association, is achieving in an acceptable manner its avowed purposes. The users of this list are urged to keep these facts in mind.

*Explanation of dates.*—The dates listed are dates of membership. The first accredited list was published in 1913; no institution was accredited prior to that time.

A dash connecting two dates indicates continuous accreditation during the period specified, e.g., 1915–1919 means continuous accreditation from 1915 to 1919 inclusive. A date followed by a dash indicates continuous accreditation to and including the current year. A semicolon indicates that the institution was on the list for the year or years specified but that it was not on the list for the following year, unless the next entry shows a change of classification for the latter years.

*Designation of extent of program.*—The symbol (M) or (S) or (D) after the name of an institution indicates that the institution offers a graduate program leading to the Master's, Specialist's, or Doctor's degree, respectively, and that the accreditation of the institution includes its graduate work. Those institutions which are listed neither as junior colleges nor as having graduate programs are Bachelor's degree-granting institutions or institutions with graduate programs that have not

yet been accredited.

In some cases the accreditation at a given level covers a limited number of areas. For information on the areas included, an inquiry should be directed to the institution or to the office of the Commission on Colleges and Universities of the North Central Association.

*Preliminary accreditation.*—The North Central Association has developed a new concept, preliminary accreditation, as part of its philosophy of the growth and development of institutions of higher education. Prior to 1961 it had been the practice of the Association to require that there be graduates from a new program before the Association would consider an application for the accreditation of the program. Preliminary accreditation means that an institution previously accredited by the Association is inaugurating a new program in an accreditable manner. The Association defines "accreditable manner" as follows: The quality level of the institution and the planning which has gone into the conception of the new program are such that the Association is convinced the new program will develop satisfactorily.

The symbol (Bp), (Mp), (Sp), or (Dp) after the name of an institution indicates that the institution has been granted preliminary accreditation for new programs leading to the Bachelor's, Master's, Specialist's, or Doctor's degrees, respectively.

In some cases preliminary accreditation at a given level covers a limited number of areas. For information on the areas included, an inquiry should be directed to the institution or to the office of the Commission on Colleges and Universities of the North Central Association.

## III. CANDIDATES FOR MEMBERSHIP

The North Central Association at its Annual Meeting in March, 1961, approved a new policy whereby an institution which is working toward membership in the Association may be listed in the *QUARTERLY* as a "Candidate for Membership." It is hoped that this new policy will permit the Association to recognize those institutions which have been actively engaged in the process of accreditation and have given evidence of an impressive rate of growth and development.

Non-accredited institutions of higher education which comply with the following criteria are eligible for consideration as Candidates for Membership:

- A. The institution must be chartered as a non-profit institution.
- B. The institution must include in its curriculum or as a prerequisite for entrance or graduation a sequence of general education.
- C. The institution must be actively engaged in seeking membership in the North Central Association.

The steps in the procedure are as follows:

1. An institution which has been engaged in a self-study project may submit a copy of its status study through the Office of the Secretary of the Commission on Colleges and Universities to the Executive Board of the Commission. The status study will contain a complete statement of institutional purposes, a discussion of the key problems that the institution faces, and those data to be used in the preparation of the self-study report.

2. On the basis of the status study, the Executive Board may allow the institu-

tion to be listed as a Candidate for Membership. In its consideration of the status study, the Board will be concerned with the clarity of the institution's conception of its goals and the level of progress it has achieved in the development of educational standards, facilities, and resources.

3. Listing as a Candidate for Membership indicates to the profession at large that the institution is *actively* engaged in the process of accreditation. It further allows the institution to avail itself of the services of the College Field Service Council and entitles the institution to a yearly subscription to the North Central Association *QUARTERLY*.

4. The list of Candidates for Membership will be published annually in the Summer Issue of the North Central Association *QUARTERLY*.

5. If after a reasonable time the institution makes little or no progress toward accreditation, the Executive Board of the Commission on Colleges and Universities may remove the institution from its list of Candidates for Membership.

6. The annual service fee for Candidates for Membership will be \$50 for junior colleges and \$100 for all other institutions.

The institutions listed below, while not members of the Association, are to be regarded as Candidates for Membership. Each has presented evidence that it is actively engaged in the process of institutional self-study, and each has given promise that if its present rate of growth and development continues it will be admitted to membership in the Association within a reasonable length of time.

# Proceedings of the Commission on Secondary Schools

---

## I. REPORT OF THE COMMISSION

THE SIXTY-SIXTH ANNUAL MEETING of the Commission on Secondary Schools of the North Central Association of Colleges and Secondary Schools opened with a meeting of the Administrative Committee at the Palmer House in Chicago on Sunday, March 19, 1961, at 9 o'clock A.M. The Dependents' Schools Committee met at 8 o'clock A.M. on Monday, and at 9 o'clock A.M. of the same day the Administrative Committee and the State Chairmen started their all-day session.

Much of the time of the meeting of the Administrative Committee was taken up in discussing the recommendations of the Dependents' Schools Committee, the proposed budget for 1961-62, the report of the Report Forms Committee, and to the routine problems of the Commission.

The Dependents' Schools Committee met briefly at 8 o'clock Monday morning just prior to the meeting of the Administrative Committee and State Chairmen to take action on four Dependents' Schools. Action on these schools had been deferred in order to give them a chance to submit additional information. This information had been received and was reported by the Executive Secretary and the Committee made its recommendation to the Administrative Committee and to the appropriate Reviewing Committee.

The Administrative Committee and the State Chairmen spent the day from 9 o'clock A.M. to 3 o'clock P.M. hearing reports of Committees and in discussing problems common to all State Chairmen, especially those that had to do with interpreting, clarifying and enforcing the Policies and Criteria.

The organization of the Reviewing Committees had been completed in detail prior to the opening of the meeting. Promptly at 9 o'clock on Tuesday morning, March 21, 1961, the work of the Reviewing Committees got under way. A total of 644 individuals sat down to review the annual reports of 3,657 schools. By 3 o'clock P.M. they had completed their task and all reports had been returned to the office of the Executive Secretary.

At 3:30 o'clock on Tuesday, March 21, the chairmen, assistant chairmen, and secretaries of the Reviewing Committees met with the Administrative Committee and the nineteen State Chairmen. They reported the results of the day's work; heard any state chairman who might question the decision of the Reviewing Committee concerning a school within his jurisdiction; and thus cleared up all queries raised concerning individual schools prior to the presentation of the actions of the Reviewing Committees to the Commission at its final business session.

The "Buzz Sessions," introduced in 1954, were continued with the same fine results. These groups met on Tuesday, March 21, at 2:00 P.M., and were attended by those who had completed their reviewing activities and by any other interested individuals. Malcolm R. McKay, Principal, Senior High School, St. Joseph, Michigan, was the general chairman. Under him were five sub-groups, each with a chairman and a recorder. These meetings were well attended. In some instances, many who wished to hear a particular discussion could not get into the overcrowded room. The general participation of those present indicated keen interest in the subjects at hand.

Discussion groups on problems of high school administration met on Thursday afternoon. Howard A. Latta, Principal, High School, Webster Grove, Missouri, was the general chairman. Under him were six sub-groups. All meetings were crowded, indicating interest in this type of program.

On Wednesday morning, March 22, the first general business meeting of the Commission was held. The Executive Secretary presented his report, which covered the activities of the Administrative Committee and the Dependents' Schools Committee. In addition, the following chairmen reported for their respective committees:

Herbert Bishop, *Activities Committee*

L. A. Van Dyke, *Cooperating Committee on Research*

Lester W. Anderson, *Report Forms Committee*

Lowell B. Fisher, *Committee on Relations with Colleges*

Robert J. Keller, *Committee on Publications and Information Service*

In conformity with the new Rules of Procedure, the Administrative Committee (at its June meeting), elected the following named individuals to membership on the Nominating Committee:

Ed McCuiston, Arkansas, *Chairman*

Harold Mack, Wyoming

Hugh Laughlin, Ohio

Elmer Weltzin, Minnesota

C. W. Juergensmeyer, West Virginia

The report of the Nominating Committee was called for at this time and Mr. McCuiston, Chairman, reporting for the Committee, placed in nomination the following individuals:

*Chairman*

Wayne C. Blough, Principal, Shaw High School, East Cleveland, Ohio

*Vice Chairman*

L. A. Van Dyke, University of Iowa, Iowa City, Iowa

*Past Chairman*

Russell F. Lewis, State Department of Public Instruction, Madison, Wisconsin

*Administrative Committee*

Krebs 1963

Klein 1964

Weltzin 1965

Bryant 1964

Crowell 1965

*Member of the Commission on Colleges and Universities*

Clell C. Warriner, Principal, High School, Okmulgee, Oklahoma (1964)

*Members of the Executive Committee*

H. Pat Wardlaw, State Department of Education, Jefferson City, Missouri (1964)

Kenneth Anderson, University of Kansas, Lawrence, Kansas (1965)

The report of the committee was accepted and the chairman then called for nominations from the floor. None being offered, it was moved and seconded that the individuals named by the Nominating Committee be elected to offices indicated. The motion carried unanimously, whereupon the meeting was adjourned.

The final business meeting of the Commission was held on Wednesday afternoon, March 22.

Following the roll call by states, the chairman of each Reviewing Committee re-

ported on the findings of his committee and made the following recommendations, which were accepted unanimously:

## V. POLICIES AND CRITERIA FOR THE APPROVAL OF SECONDARY SCHOOLS

## SECTION I—POLICIES

*Policies are adopted procedures and guides to be followed by the Commission on Secondary Schools in accrediting member schools.*

*Policy I. Period of Accreditation*

A member secondary school of the North Central Association is accredited for an indefinite period. Its certificate of membership is valid as long as the school satisfies conditions for accreditation by the Commission on Secondary Schools and is fully approved or accredited by the legally constituted or recognized accrediting agency in its state.

NOTE: If a state accrediting agency uses a multiple classification, a school must qualify for the class designated by the State Committee as appropriate in that state.

*Policy II. Review of Annual Reports by State Committees and the Commission on Secondary Schools*

1. A secondary school desiring to continue membership in the Association shall submit an annual report and such supplementary reports as the Commission on Secondary Schools finds necessary in order to accredit schools.

2. The State Chairman for each state shall distribute the annual report forms with supplementary instructions and suggestions each fall, check the receipt of reports, and make an initial review of the reports in preparation for review by the State Committee. The State Committee shall examine the annual reports from member schools and make recommendations to the Commission for its consideration during the review of the status of all member schools at the annual meeting of the Association in the spring.

3. It shall be the policy of the Commission not to take an action affecting the accreditation of a member school which is different from that recommended by its State Committee without first consulting with the State Chairman.

*Policy III. Evaluation of the Composite Effectiveness of Schools*

1. A school shall be judged, insofar as is possible, in terms of its stated philosophy provided that its philosophy is in harmony with the educational needs of its students, of its community and of the nation.

2. A school shall be judged upon the basis of the total pattern it presents as an institution of its type. Although it is a purpose of an accrediting association to develop certain basic standards for the approval of schools, it is recognized by the Commission that variations will occur in the purposes and programs of institutions and in the degrees of excellence that they attain. Criteria and procedures in accreditation, therefore, should be sufficiently flexible to provide for some variations. It shall be the policy of the Commission on Secondary Schools to recognize that departures from specific criteria may be compensated for by a school's over-all excellence. It is the responsibility of a member school, and of the State Committee, however, to submit such information as the Commission may require to support the school's claim of general excellence.

3. The Commission on Secondary Schools, through research and study, shall continue to seek to improve its criteria and to make them stimulating and conducive to the educational advancement of the member schools.

4. In the case of any school whose status or classification is in question or in the case of a school applying for membership, the use of the *Evaluative Criteria* of the Cooperative Study of Secondary School Standards is recommended for evaluation. A school should use the full Cooperative Study procedure including a review of its self-evaluations by a visiting committee.

*Policy IV. Classification of Schools for Accreditation*

The accreditation status of member

schools shall be reviewed annually. Based upon an analysis of its annual report and such additional information as the Commission may require, a member school shall be classified under one of the following categories each spring at the annual meeting:

1. *Accredited*. A school shall be classified as "*Accredited*" when it fully meets the requirements of all Criteria or when, in the opinion of the State Committee and/or the Commission, any minor departures are offset by evidence of the excellence of its total program.

2. *Accredited—Advised*. A school shall be classified as "*Accredited—Advised*" when in the opinion of the State Committee and/or the Commission, it fails to meet one or more of the Criteria and the resulting deficiency does not detract to a serious degree from the quality of the school's educational program, but which, if continued, would be likely to interfere with the effectiveness of the school. An advisement is, in effect, a conditional approval and may be continued beyond one year if the school makes satisfactory progress toward correcting the deficiency. If satisfactory progress is not made, it shall be the policy of the Commission to "Warn" the school.

3. *Accredited—Warned*. A school shall be classified as "*Accredited—Warned*" when, in the judgment of the State Committee and/or the Commission, it fails to meet one or more of the Criteria and the resulting deficiency may seriously detract from the quality of the school's educational program. The cause of warning should be removed within a year as a condition for continued membership in the Association. Member schools may also be warned or dropped whenever it becomes evident that they frequently violate conditions for approval by the Commission.

4. *Withdrawn or Discontinued*. A school which voluntarily requests to withdraw or is discontinued will be classified as "Withdrawn or Discontinued" for the records of the Association.

5. *Dropped*. A school which finds it impossible to meet the Criteria or refuses to

do so in successive years, may be dropped from membership. A school shall not be dropped without a one-year warning if it has been accredited continuously for five years, except by a three-fourths majority vote of the members of the Commission present at the annual meeting.

*NOTES: 1. The period of warning is for one academic year. If, at the end of a year the cause for warning has not been corrected, the school will be dropped from membership in the Association, except under extraordinary circumstances when a second warning may be given. A second warning may be given only by means of a three-fourths majority vote of the members of the Commission present at the annual meeting of the Association.*

*2. State Committees should recommend to a school which has been warned for violation of one or more criteria that it undergo a self-evaluation employing the evaluative criteria of the Cooperative Study of Secondary School Standards. The descriptive materials and forms for this procedure may be secured by writing to the Cooperative Study of Secondary School Standards, 1785 Massachusetts Avenue, N.W. Washington 6, D. C.*

#### *Policy V. The Responsibilities of State Committees and State Chairmen*

1. State committees are the agencies of the Commission on Secondary Schools responsible for making decisions and recommendations relative to the standing of member schools. In addition to receiving and examining reports from schools and making recommendations to the Commission, State Committees have the responsibility of working with member schools to assist them to meet satisfactorily or to exceed the provisions of the Criteria.

2. The Chairman of each State Committee is the official agent of communication between the secondary schools in that state and the Commission on Secondary Schools. He is responsible to the Commission for the distribution, collection, and filing of all reports, and for such other duties as the Commission may define. (See Section III-B)

3. All State Committee members are ex-officio members of the Commission on Secondary Schools of the Association.

## SECTION II—CRITERIA

*Criteria are the standards employed by the Commission on Secondary Schools for the accreditation of member schools. Two types of criteria are employed: (1) Approval Criteria, which a member school is expected to meet each year with some degree of flexibility as provided for in Policy III, and (2) Progress Criteria, which have been adopted as additional standards of excellence and which a member school is expected to meet within an agreed period of time.\* The Progress Criteria are printed in boldface type.*

\* The period of time shall be agreed upon by the State Committee in consultation with official representatives of each member school affected.

*Criterion I. Philosophy and Objectives**A. Pupil Population and School Community*

Since a school exists to serve the educational needs of its students and of our democratic society, it should be familiar with the distinctive characteristics of its community, such as its sociological composition, its social, economic, religious, recreational, and educational institutions and agencies, and the educational needs of its youth and adults.

The local community is part of the state, nation, and world, and therefore, the school should be concerned with an understanding of its role in relation to these larger communities and with forces that aid all peoples to live together peaceably. A member school, therefore, shall develop its philosophy and objectives from a rational consideration of these several forces.

NOTE: A school's community may consist of its student body and patrons as in the case of a private school or it may include these along with a certain population center as in the case of a public school.

*B. Philosophy of the School*

Each school shall develop its own statement of philosophy consistent with the principles and spirit of American democracy. The philosophy of a member school shall be stated in writing and shall define the major objectives which are to be im-

plemented by the educational program of the school.

*Criterion II. The Educational Program*

The educational program of any good school should be concerned with imparting knowledge and the development of skills. But the development of interests, appreciations, ideals and attitudes and the functioning of all these elements in a democratic society also should be regarded as essential to a sound educational program. The following principles are presented as guides to assist member schools in securing good balance in their total educational program:

*A. Basic Guides*

1. The educational program shall be developed from the school's philosophy and from a knowledge of the needs of its students.

2. The program of a school shall be appropriate to serve the important educational needs of the community in which it functions.

3. The school's program shall be sufficiently broad to serve both general and specialized purposes of its students. It shall provide a variety of learning experiences through classroom, extra-classroom and guidance services.

4. The planning of guiding policies and the design of a school's educational program shall provide opportunities for co-operative participation by laymen, students and faculty members.

5. Provisions shall be made for students of different talents, intellectual capacities and future interests.

6. Flexibility in organization and administration shall be provided to serve varying groups and situations.

7. Resources of the community shall be utilized discriminately to enrich the program.

8. The secondary school shall seek to provide a program designed to encourage all educable youth in its community to complete a high school program.

9. There shall be continuous and planned provisions for appraisal, evalua-

tion and needed improvement of the program.

### B. The Program of Studies

The following program of subject offerings has been adopted by the Commission as a minimum for all member schools to provide that students may, at least, have an opportunity to become acquainted with, and to develop possible interest and abilities in, each of several curricular fields. Most member schools should find it possible to provide more extensive offerings and larger schools will be expected to do so. It is the view of the Commission that member schools should plan their curriculum patterns so as to serve their own students and communities, therefore, the Commission has not attempted to specify course offerings, grade placement and sequences.<sup>1</sup>

1. *Extent of Offerings.* Each member school shall offer at least 26 units of course work, or the equivalent if units are not employed in granting credit. These courses shall be offered in grades nine through twelve in each school or, in the case of a senior high school, with its affiliated junior high schools. The distribution of the 26 units shall include instruction in each of the following fields:<sup>2</sup>

1. Language arts (e.g., English, speech, and journalism)
2. Science
3. Mathematics
4. Social studies
5. Foreign languages<sup>3</sup>
6. Fine arts (e.g., Music, art, dramatics)
7. Practical arts (e.g., Business, industrial arts, homemaking, agriculture)
8. Health and physical education.

NOTE: 1. The alternation of some advance courses in successive years will be approved if requested, and may be counted in a school's total offerings. Core-type programs and other departures from conventional organizations also will be approved by State Committees, but correspondence courses in which local students are enrolled may not be counted as offerings.

2. It is strongly recommended that the distribution of minimum offerings be as follows: Language arts—4 units, Science—4 units, Mathematics—4 units, Social studies—4 units, Foreign languages—2 units, Fine arts—2 units, Practical arts—5 units, Health and physical education—1 unit.

3. Effective as of September 1, 1963.

2. The pattern of organization for the program of studies shall be designed to aid the student in making a wise selection of courses and to facilitate learning (i.e., suggested curricula for guidance purposes, the proportion of electives to required courses, majors and minors, etc.).

3. Provisions shall be made for continuity in, and articulation of, the program of studies from grade to grade and within each grade level.

### C. Instruction

1. Member secondary schools shall provide personnel, physical facilities, and favorable conditions for effective classroom instruction. The teacher is the key to the quality of instruction in any school, but good teachers need adequate support from the community, adequate and appropriate instructional supplies and equipment, and cooperative pupil attitudes if they are to provide effective instructional leadership. All member schools of the Association shall make a genuine effort to maintain favorable conditions for good instruction.

2. In addition to the personal influence of good teachers, a total pattern of successful instruction includes special components which member schools shall provide. Included are: (1) well-defined instructional outcomes, (2) systematic planning by teachers, (3) the selection and use of varied types of learning materials and experiences, (4) the adaptation of organization and instructional procedures to pupil needs, (5) the use of varied evaluation instruments and procedures, and (6) good teacher and pupil morale.

### D. Extra-classroom Activities

1. Each member school shall maintain a balanced program of extra-classroom activities, based on well-defined purposes, and designed primarily to serve important educational needs of its pupils. Participation and membership in activities shall be governed by democratic principles.

2. The administration and supervision of all such activities shall be delegated by the governing board of the school to the

administration and faculty.

3. Regulations for participation in inter-scholastic competition by a member school shall be consistent with those formulated by the organization recognized by the State Committee for the control of such activities in that state. In the absence of state board of control regulations for certain activities, the State Committee of the North Central Association may formulate regulations to be followed by member schools in its state.

4. Participation in inter-scholastic competitions shall grow out of a broad program of participation for all students and shall be regarded in its proper perspective as one of several worthwhile types of educational experiences. The loss of class time for preparation and for competition shall be kept to a minimum. Long and expensive out-of-state trips during the school year shall not be undertaken.

5. Participation in interstate,\* national or regional tournaments, festivals, exhibitions, or other types of multiple school competitions as well as such contests for individual pupils representing a school may be approved by the Association only if the particular event appears on the approved list published annually in *The Bulletin* of the National Association of Secondary School Principals.

\* This does not refer to natural competition between schools along state borders.

6. Member schools should make a genuine effort to avoid scheduling inter-scholastic contests at times when they are likely to interfere with the classroom program. Athletic and other types of interscholastic competitions should be scheduled on weekends whenever possible.

#### E. Guidance Services

1. Each member school shall provide organized guidance services for its pupils. Guidance, as a part of secondary education, is a service designed to give systematic aid to pupils in making adjustments to various types of problems which they

meet—educational, vocational, social, civic and personal.

2. Each member secondary school shall be expected to provide adequate personnel, physical facilities, and materials for effective guidance and counseling services for its pupils. Included shall be a sufficient number of trained counselors to permit individual conferences with pupils as needed, provisions for teacher-counselors for small groups such as home room, appropriate test data and related pupil information for effective counseling, an adequate system of pupil records, and adequate reference materials.

#### F. Evaluation

Each member school shall make a planned and continuous evaluation of the effectiveness of its educational program in accomplishing the objectives or outcomes upon which its staff and board have agreed.

#### G. Health and Safety Services

Each member school should provide services to supplement those available through other agencies in the community to aid students in maintaining good physical and mental health. Included in the school's health program should be such provisions as a school nurse, health examinations, health records, wholesome school lunches, health and safety instruction, healthful and safe physical plant facilities, and the full-time or part-time services of professional health personnel.

#### Criterion III. Organization, Support, and Control

##### A. Type of Organization

A member secondary school shall include at least grades ten, eleven, and twelve and may include grades seven through twelve in its organization.

NOTE: A secondary school in the North Central Association may be a six, five, four, or three-year school. It must, however, include grades ten, eleven and twelve in its organization. If it includes grades seven, eight, or nine, or any combination of these, it may elect to report on all grades in its annual report or it may

report on the upper four or upper three grades. A school may not change its stated type of organization, however, for purposes of making its annual report without approval of the State Committee. A three-year senior high school in a school system with one or more separate junior high schools should not include any of the junior high school grades in its report. Such junior high schools are not accredited, at the present time, by the Commission on Secondary Schools.

#### B. Size of School

A secondary school to become a member of the North Central Association and to continue to qualify for accreditation shall enroll a sufficient number of students and employ a sufficiently large faculty to permit a comprehensive and balanced educational program. The minimum program, in terms of breadth of curriculum offerings, student activities, guidance, and special services, shall be that outlined under Criterion II.

#### C. Administrative Policies and Procedures

1. Responsibility for determining the general policies of a member school shall be entrusted to a governing board hereinafter referred to as the board of education. The board of education shall authorize the superintendent of schools to indicate its approval of the Policies and Criteria of the Commission on Secondary Schools of the Association on the Annual Report form.

NOTE: In the case of private or church schools, the term, "Board of Education," refers to the individual or body performing the functions corresponding to those of a board of education in a public school system.

2. The board of education in cooperation with the staff shall prepare a set of policies to serve as a basis for the administration of the school and as a guide to the superintendent and other employees in conducting their respective duties. These policies shall be in published form and available to employees and patrons of the school.

3. The policies shall be such as to attract and retain the services of well-qualified and competent employees. The status of staff members shall be changed only with the recommendation of the administrative head of the school system and only at an official meeting of the board of edu-

cation. Employees shall be kept informed of their status and in the event that the board contemplates action for dismissal, the employee affected shall be presented with reasons and given an opportunity for a hearing before official action is taken by the board. This policy shall apply to the relations of the board to administrators as well as to administrators' relations to other professional personnel.

4. The board of education shall be responsible for the selection of its chief executive officer, who is the superintendent, principal, or other designated administrative head of the school system. Subject to the approval of the board of education, the administrative head of the school system shall be responsible for the selection and assignment of school employees, the management of the school plant and equipment, the administration and supervision of the educational program and the conduct of the program of public relations.

5. The administrative head of the school system shall be expected to attend all meetings of the board except at times when consideration may be given to his own appointment and salary.

6. The board of education shall transact official business with professional staff members and other school employees only through the administrative head of the school system.

7. The administrative head of the school system shall prepare and submit annually for the board's consideration a budget of anticipated income and expenditures and shall be responsible with proper board authorization for the expenditure of, and proper accounting for, all funds in accordance with the budget.

#### D. Relations of the Professional Staff and Board of Education

The working relationships between the board of education and the administrative head of the system, between the administrative head of the system and the principal of the secondary school, and between principal and staff shall be such as to insure cooperative and effective administration. Administrative procedures shall be

carried on by democratic processes which utilize the abilities and contributions of staff members.

### E. Community Support

The school community through its elected representatives on the board of education shall show a willingness to support the school program, financially and otherwise. Sufficient funds shall be provided each year to insure good standards of school services to the community and to meet the standards of accreditation of the North Central Association.

### Criterion IV. The School Staff

#### A. Administrative and Supervisory

1. *Unified elementary-secondary school systems.* The minimum administrative and supervisory personnel for member schools which are integral parts of unified school systems shall be:

- a. For high schools enrolling fewer than 250 students—a full time superintendent\* of the school system and a principal who devotes at least half-time to the administration and supervision of the high school.
- b. For high schools enrolling 250 or more students—a full-time superintendent\* and a principal who devotes most of his time to the administration and supervision of the high school, and such special supervisors as the effective operation of the program requires.

\* In county, parochial, or similar systems, the superintendent of the county unit or the diocese shall be considered to be the superintendent for the accredited high school.

2. *High schools independent of elementary schools.* For high schools which are not affiliated with elementary schools such as township or union high school districts or non-public high schools, the minimum administrative and supervisory personnel shall be one full-time administrative head (principal, headmaster, etc.) for each school regardless of size and in schools of 500 and above there shall be in addition at least one part-time administrative assistant.

3. *Preparation.* (The following shall not become retroactive for administrators in their present positions.)

- a. *Superintendent.* The superintendent who is the administrative head of the school system shall hold a Master's degree with at least twenty semester hours of graduate work in professional education with major emphasis on administration and supervision. This preparation should include study in such fields as educational philosophy, psychology, supervision, curriculum, and administration. He shall have had a minimum of four years of successful professional experience.
- b. *Principal.* The principal of a member high school shall hold a Master's degree with at least twenty semester hours of graduate work in professional education with major emphasis on administration and supervision. This preparation should include such graduate courses as educational philosophy, secondary administration and supervision, curriculum, guidance, educational psychology, and related courses. He shall have had a minimum of two years of successful teaching experience.
- c. *Assistant superintendents and assistant principals.* In school systems employing assistant superintendents, such assistants shall possess the same minimum training and experience as required for the superintendent. In high schools employing assistant principals, such assistants shall have at least ten hours of graduate training in secondary school administration, supervision and guidance when they assume their duties and shall meet the requirements for a principal within four years of that date.
- d. *Special supervisors.* In schools employing secondary school supervisors in such fields as speech, music, health, testing, curriculum and instruction, libraries, vocational education, and related positions, such supervisors shall hold a Master's degree with specific professional preparation in the fields in which they are serving.

#### B. Teachers

1. *Adequate teaching personnel.* The number of teachers employed in the high school shall be adequate to provide effective instruction, direction of extra-classroom activities, counseling and other educational services.

##### 2. Teaching loads.

- a. The ratio of pupils to teachers and other professional staff members of the high school shall not exceed 27 to 1. Only a staff member's time actually devoted to duties in the high school may be counted in determining the pupil-teacher ratio.
- b. The teaching load shall be such that teachers have adequate time to perform their duties effectively. A teaching load in excess of seven periods daily for the short period schedule and six periods daily for the lengthened

period schedule shall be considered a violation of this criterion.

- c. It is strongly recommended that each teacher should be assigned at least one period daily for conferences and preparation. In schools employing the lengthened period schedule with six or seven periods, teachers should be assigned not more than five classes and/or study halls. In schools employing the short period type of schedule with eight or more periods, teachers should be assigned not more than six classes and/or study halls.
- d. Except in certain activity type classes such as typewriting, physical education and music, the total pupil load for a teacher shall not exceed 170 pupils per day.

NOTE: Although it is desirable to limit the pupil load of teachers in activity type subjects to a load that is reasonable in comparison with teachers in other fields, the wide variations in the nature of activities in these fields make it necessary to consider all of the circumstances surrounding a teacher's assignment. The reasonableness of teaching loads in these fields shall be interpreted by the State Committee.

3. *Preparation.* (The following shall not become retroactive, but shall apply to personnel employed after adoption of the new criteria.)

- a. *Degree and Legal Standards.* All teachers shall hold a Bacculureate degree from an institution accredited by the North Central Association or some other regional accrediting association. All teachers shall meet the legal standards for teachers in the state in which they are employed.
- b. *General Preparation.* All teachers shall have at least 30 semester hours of work in general education including course work in such fields as English, history, social science, science, mathematics, fine arts, languages, philosophy, religion, and psychology.

NOTE: Teachers who are graduates of non-accredited institutions may have their undergraduate work validated by admittance to graduate standing and the completion of a minimum of five semester hours of credit in an accredited graduate college. The State Committee in some states may require that official transcripts for all new high school staff members be submitted with the annual report. Certified copies of transcripts may be accepted by the State Committee. Credits earned through summer session work, extension courses and correspondence study in accredited colleges or universities will be recognized by the Association and may be counted toward meeting the Association's standards for teacher preparation.

- c. *Preparation in teaching fields.* Teachers shall be assigned only to those subjects in which they have at least 18 semester hours of preparation.

Teachers of core-type or block-of-time courses shall have at least 24 hours of preparation appropriately distributed among the subject fields included in the course.

NOTE: The following schedule of preparation in specific teaching fields will be followed in the approval of teachers:

- (1) **FOREIGN LANGUAGES**—A teacher of foreign languages shall have at least 18 semester hours of credit in each foreign language to which he is assigned. (One semester hour may be allowed for each unit of high school language, but not to exceed three hours.)
- (2) **MATHEMATICS**—A teacher of mathematics shall have at least 18 semester hours of credit in mathematics. (He need not have college courses corresponding to each high school course to which he is assigned. One semester hour may be allowed for each unit of high school mathematics, but not to exceed three hours.)
- (3) **BUSINESS\***—A teacher shall have at least 18 semester hours in business education with at least 5 semester hours in each high school subject to which he is assigned. Teachers of junior business or general business courses will be approved if qualified in the field of business education.

\*A certificate of proficiency based on an examination in typing and shorthand and administered by an accredited college may be substituted for specific college courses in these subjects.

- (4) **LANGUAGE ARTS** (Includes English, speech, journalism)—18 semester hours.
  - (a) **ENGLISH** teachers shall have at least 18 semester hours in English of which not more than 5 semester hours may be in speech and/or journalism.
  - (b) **SPEECH** teachers shall be qualified to teach English with at least 5 semester hours in speech.
  - (c) **JOURNALISM** teachers shall be qualified to teach English with at least 5 semester hours in journalism.
- (5) **SOCIAL STUDIES** (Includes history, government, economics, sociology, geography, and psychology)—All teachers of social studies shall have at least 18 semester hours appropriately distributed in the field with at least 5 semester hours in each specific course to which they are assigned.
  - (a) **WORLD HISTORY** teachers shall have at least 5 semester hours in World or European history.
  - (b) **MODERN OR CONTEMPORARY PROBLEMS AND CITIZENSHIP** teachers shall have at least 5 semester hours of history plus courses in government, economics and sociology.
  - (c) **PSYCHOLOGY** teachers shall have at least 5 semester hours in general psychology.
- (6) **SCIENCE** (Includes general science, biology, chemistry, physics, consumer or physical science, related vocational science and applied science.)—All science teachers shall have at least 18 semester hours in the field of science with at least 10

*semester hours in each subject to which they are assigned.*

- (a) GENERAL SCIENCE teachers shall have 18 hours in science including at least once course in a biological science and one course in a physical science.
- (b) PHYSICAL SURVEY SCIENCE OR SENIOR SCIENCE teachers shall have 18 hours in science with at least 10 semester hours in one of the physical sciences.
- (7) HOMEMAKING teachers shall have at least 18 semester hours in home economics.
- (8) PHYSICAL EDUCATION teachers shall have at least 18 semester hours of physical education credit.
- (9) INDUSTRIAL ARTS (GENERAL) teachers shall have at least 18 semester hours of industrial arts credit.
- (10) INDUSTRIAL EDUCATION (VOCATIONAL) teachers will be approved by the Commission if they hold a valid certificate for this field issued by the state in which they are teaching.
- (11) DRIVER EDUCATION teachers will be approved by the Commission if they hold a valid certificate for this field issued by the state in which they are teaching.
- (12) ART teachers shall have at least 18 semester hours in the field of art.
- (13) AGRICULTURE teachers shall have at least 18 semester hours in agriculture.
- (14) MUSIC teachers shall have at least 18 semester hours in music.
- (15) CORE OR BLOCK-OF-TIME teachers shall have at least 24 semester hours appropriately distributed among the subjects included in the core or block-of-time.

NOTE: In the case of a teacher who devotes not more than one-third of his time to the teaching of a particular subject, a small deviation from the minimum preparation may be permitted for a period of one year when approved by the State Committee.

Only courses listed under a specific subject in the catalog or on the transcript from the college in which they were completed will be accepted as credit in that subject.

d. *Master's degree.* Teachers should earn a Master's degree or thirty semester hours of graduate credit within a period of ten years of service in a North Central high school. This graduate program should include course work in the teacher's major teaching field. Exceptions may be made for teachers who are within 10 years of retirement at the time these standards become effective.

e. *Professional preparation.* All teachers shall have at least 18 semester hours of course work in the field of professional teacher education.

## C. Special Professional Service Personnel

### 1. Guidance counselors

a. *Adequate personnel.* All member high schools should employ at least one professionally trained counselor or director of

guidance services. The ratio of students to qualified guidance personnel should be approximately 300 to 1. Schools enrolling fewer than 300 pupils should have at least one half-time guidance worker. Schools enrolling over 300 pupils should have a full-time guidance worker or the equivalent in part-time workers for every 300 pupils or major fraction thereof.

b. *Preparation.* Professional staff members employed primarily as guidance counselors or directors should have at least 15 semester hours of graduate preparation in guidance and counseling.

## 2. Librarians

a. *Adequate personnel.* Schools with an enrollment of 500 or more pupils shall employ a librarian who devotes full-time to library services. Schools with an enrollment of 200-499 pupils shall employ a librarian who devotes at least one-half time exclusively to library services. Schools with an enrollment of less than 200 pupils shall employ a part-time librarian who devotes at least one-third of the school day exclusively to library services.

b. *Preparation.* The librarian shall meet the requirements for classroom teachers with reference to a degree and to general and professional preparation as outlined in Criterion IV-B. The librarian also shall have a minimum of 15 semester hours of library science.

NOTE: Schools enrolling 1,000 or more pupils should provide a full-time assistant librarian for each additional 1,000 pupils or major fraction thereof. Adult clerks should be provided as needed to permit librarians to perform their professional functions. A ratio of one clerical assistant for each 750 pupils is recommended.

3. *Health personnel.* (Physician, dentist, nurse, psychologist, speech correctionist, hearing therapist, etc.) Such members of the non-instructional professional staff as may be employed should meet the certification requirements of the state in which the school is located.

## D. Clerical and Custodial Staff

1. *Clerical staff.* Adequate clerical assistance shall be provided to the professional staff. The qualifications of such personnel shall include, as a minimum, high school graduation and preparation in office and secretarial work.

2. *Custodial staff.* The custodial staff shall be adequate to maintain the plant and

that it is safe, clean, and attractive. Custodians shall meet the legal standards of the state pertaining to their training and employment.

## *C. Records of Preparation*

Official transcripts for all professional staff members shall be on file in the office of the administrative head of the school system or of the administrator of the member secondary school.

## *D. Salaries*

Professional school personnel shall be paid salaries adequate to permit a standard of living appropriate for professional persons in the community in which they are employed and which make possible continued professional improvement.

## *Criterion V. The Library and Instructional Material and Equipment*

### *A. The Library*

1. The library shall be organized as a resource center of instructional material for the entire educational program. The number and kind of library and reference books, periodicals, newspapers, pamphlets, information files, audio-visual materials, and other learning aids shall be adequate for the number of pupils and the needs of instruction in all courses.

2. *Adequacy of collection.* A minimum collection of 1,200 books exclusive of high school textbooks and appropriate for the instructional needs of pupils, or at least seven books per pupil enrolled, whichever is the larger, shall be provided in the library until a school's enrollment reaches 500, at least four additional books shall be provided for each pupil from 500 to 2,000 enrolled, and at least three additional books per pupil shall be provided for each pupil above 2,000 enrolled. An adequate collection of periodical and file material shall also be provided. (See Section III-E for recommended distribution.)

3. *The library quarters and equipment.* The library quarters shall be attractive, easily accessible, appropriately equipped and shall accommodate the following por-

portion of the enrollment at reading stations:

In schools enrolling up to 1,000 pupils, 8 percent, but not less than 40 pupils.

In schools enrolling from 1,000 to 1,999 pupils, 7 percent, but not less than 80 pupils.

In schools enrolling 2,000 or more pupils, 5 percent, but not less than 140 pupils.

4. *Classification and cataloging.* Classification and cataloging of the collection shall include a shelf list, an alphabetically arranged card catalog and classification by the Dewey Decimal system.

5. *Records.* Records of circulation, inventory data and finances shall be accurate and up-to-date.

6. *Expenditures.* The library shall be provided with an adequate collection according to the standards above. After the library is once supplied with a minimum collection, the annual expenditure for books and magazines exclusive of textbooks and audio-visual materials shall be \$2.50 per pupil for the first 200 pupils, but not less than \$400, \$1.50 per pupil for the next 300 pupils, and \$.75 per pupil for each pupil above 500 enrolled.

### *B. Classroom Instructional Materials and Equipment*

Adequate and appropriate types of teaching and learning materials and equipment for all areas of the school program shall be provided. The quantity and type of the instructional material and equipment required shall be determined by the size of the school, and the nature of the school program.

## *Criterion VI. Administrative and Supervisory Services*

### *A. Administrative Relationships*

1. The administrator of a member secondary school (hereinafter referred to as the principal) shall be the responsible head of that school and his relationship to the administrative head of his division of the school system shall be cooperative and

as direct as possible. Lines of administrative and supervisory authority between the central office staff and the principal shall be clearly defined.

2. In schools which employ assistant principals, directors of activities, counselors, special supervisors, and other administrative and supervisory personnel, such persons shall work through the principal in the performance of their duties in his school.

3. The principal shall be responsible for making recommendations to the central office staff concerning the appointment, retention, promotion and assignment of all professional and non-professional personnel who are under his direction.

### *B. Supervision*

The principal shall be responsible for the improvement of instruction and the professional growth of his staff in service. He shall encourage and promote continuous evaluation by his staff of the program of studies, the pupil activity program, guidance services, courses of study, instructional procedures, library services, and other aspects of the educational program of his school and shall seek to improve the educational program as a result of such evaluation. In small schools without special supervisors the principal shall devote approximately one-half of his time to supervision. In larger schools with assistants and special supervisors the principal shall devote such portion of his time as is required to stimulate and coordinate the program.

### *C. School Records and Reports*

1. Each school shall maintain such records and prepare such reports, as are necessary for effective planning, operation, evaluation and reporting of the results of the educational program.

2. Adequate records shall be kept by each member secondary school relative to the following components of its educational program: (1) pupil personnel, (2) staff, (3) instructional supplies and equipment, (4) curriculum, (5) pupil activities,

(6) library, (7) guidance, (8) school plant, and (9) administrative operation.

3. All basic records and reports such as the pupil permanent cumulative records, finance, staff, etc., shall be housed so that they will be safe from theft, fire, or other possible means of loss.

## *Criterion VII. School Plant*

### *A. Site*

The site should be readily accessible to the school population, free from traffic hazards and other dangers, free from distracting noises, extensive enough to provide for all instructional and recreational needs, attractively landscaped and properly maintained.

### *B. Building*

The building should be attractive in appearance, of durable, fire resistant material, adequately heated, ventilated, and illuminated, properly maintained, and should contain sufficient classroom space and other areas to accommodate the instructional program. Adequate provision should be made for rest rooms, cafeteria and dining area, auditorium, administrative offices, staff rooms, gymnasiums, health service facilities, guidance and conference rooms and other special service areas according to the needs of the school.

### *C. Safety*

Proper precautions shall be taken to protect pupils and employed personnel from injuries in laboratories, shops, gymnasiums, on stairways and in all other parts of the plant where accidents are likely to occur. An adequate number of fire extinguishers which are frequently and regularly inspected shall be readily accessible throughout the building, and fire exits shall be clearly designated. There shall be regular inspections for fire safety by official fire or police inspectors and fire drills shall be held at least three times each semester. All power machinery shall be equipped with protective guards.

### *Criterion VIII. The School Year and School Day and Week*

#### *A. School Year*

The length of the school year shall be at least 180 days, with classes actually in session for at least 175 days.

#### *B. School Day and Week*

1. The length of the school day for students shall be at least six clock hours exclusive of lunch time.

2. A member school shall organize its daily and weekly schedule on a pattern that is most appropriate for its educational program, provided that at least 200 minutes per week are scheduled for non-laboratory courses, and at least 275 minutes per week are scheduled for laboratory science courses and for such practical arts and fine arts courses as music, art, industrial arts, homemaking, typewriting and agriculture if such courses are to be recognized for one unit of credit for 36 weeks of study.

### *Criterion IX. Requirements for Graduation, Pupil Load and Credit*

#### *A. Graduation Requirements*

A three-year senior high school shall require a minimum of twelve units, or 120 semester hours, for graduation. Four-year senior high schools shall require a minimum of sixteen units, or 160 semester hours, for graduation. Six-year high schools shall require a minimum of twelve units, or 120 semester hours, earned in the upper three years.

NOTE: Member secondary schools may award credit either in terms of CARNEGIE UNITS or SEMESTER HOURS defined as follows:

- (1) A CARNEGIE UNIT is the amount of credit awarded for the successful completion of a course which meets five days per week for at least 40 minutes daily or the equivalent amount of time throughout one school year of at least 36 weeks. The equivalent time is 120 clock hours.
- (2) A SEMESTER HOUR is the amount of credit given for the successful completion of a course which meets one period per week for one semester of at least 18 weeks. A course which meets five periods per week for two semesters, therefore, would permit a student to earn 10 semester hours of credit.

#### *B. Pupil Load*

In the best interests of the social as well as the intellectual well-being of the pupil, the number of courses and activities which he carries each year should be determined on the basis of his needs and capacity. It is advisable that he have four years of experience in a four-year high school or three years of experience in a three-year high school in order to graduate. In some cases, pupils may be allowed to graduate in less than the time recommended, provided that sound guidance procedures have been followed.

#### *C. Special Provisions for Granting Credit*

Most credit earned by pupils through a member North Central high school should be through regular class instruction. Other types of credit recognized by the Commission are outlined in Section III-F.

### *Criterion X. Reports to the Association*

#### *A. Annual Report*

Each member secondary school shall submit an annual report to the Commission on Secondary Schools through the Chairman of the State Committee in the state in which it is located on or before November 15. This report shall be submitted on the regular report forms provided by the Commission and shall be accurately and completely filled out and signed by the administrative head of the secondary school.

#### *B. Supplementary Reports*

Member schools shall also submit such supplementary reports as the Commission may require from time to time in order to secure essential data for maintaining and improving its accreditation standards and procedures.

## SECTION III—ORGANIZATION AND PROCEDURES

#### *A. Published List of Accredited Schools*

A list by states of all secondary schools accredited by the North Central Association of Colleges and Secondary Schools shall be published annually in the Summer issue of the NORTH CENTRAL ASSOCIATION QUARTERLY.

### B. *State Committee Organization and Functions*

1. In states having fewer than 300 member schools, each State Committee shall be composed of five members, three of whom shall be elected from the group of administrative heads of member schools. In states with more than 300 member schools the State Committee shall be composed of seven members with five elected representatives from the group of administrative heads. In addition to the elected representatives, there shall be one representative of the State University and one representative of the State Department of Public Education appointed by the heads of those respective institutions and approved by the Executive Committee of the Association.

2. The Chairman of the State Committee shall be the representative of either the State University or the State Department of Public Education and shall be selected by a majority vote of the State Committee, subject to the approval of the Executive Committee of the Association. He shall be elected for a term of four years and shall be eligible to succeed himself, but may continue in office only as long as he is a member of the State Committee.

3. The Chairman of the State Committee is the official agent of communication between member secondary schools in his state and the Commission on Secondary Schools. He is responsible to the Commission for the distribution, collection and filing of reports and for such other duties as may be necessary to conduct the business of the Commission. In the event of a vacancy in the chairmanship, the State Committee shall elect a chairman to complete the unexpired term.

### C. *Interim Authority for the Commission*

The interim authority for interpreting Policies and Criteria is the Administrative Committee of the Commission on Secondary Schools.

### D. *Appeals by Member Schools*

A member secondary school has the right to present an appeal from the classification given to it by the action of the

State Committee and the Commission on Secondary Schools. If a school desires to make an appeal, it should submit a written request, signed by the administrative head of the secondary school and the president of the governing board, to the Secretary of the Association. The exact procedure for appeals is as follows:

1. Appeals from the decisions of the Commission shall be filed with the Secretary of the Association not sooner than ten days and not more than thirty days following the close of the Annual Meeting and such appeals shall represent official action of the governing bodies of the institutions concerned. The basis for such appeals shall be alleged departure from established procedures, bias, injustice, or the presentation of evidence, not originally offered, of the situation of the institution at the time of the original consideration of the membership of the institution. Appeals shall be supported by evidence submitted by the appealing institution in writing. The action of the Executive Committee is restricted to the consideration of allegations of departure from established procedures, bias or injustice, or of evidence not originally submitted, and does not include a reconsideration of the quality of the institution.
2. The appeal and supporting evidence shall be submitted by the Secretary of the Association to the governing body of the Commission concerned.
3. The governing body of the Commission concerned shall consider the appeal and the attached evidence, and shall send its recommendation and the evidence to the Executive Committee.
4. The Executive Committee shall consider the report of the Commission, shall hear representatives of the appealing institution if the Executive Committee so decides, and shall make a final decision concerning the appeal.

### E. *Library Collection*

It is suggested that the library collection of books be distributed approximately in the following proportions (these are guides and not requirements):

1. Book collections:
 

English, excluding fiction.....	13%
Social studies, including History.....	18%
Science and Mathematics.....	10%
Health and Physical education.....	2%
Art and Music.....	5%
Foreign languages.....	1%
Vocational subjects, including Vocational guidance, Agriculture, Home economics, Business education, Industrial arts, etc.....	10%

General reference books (not in subject fields) .....	5%
Biography and Travel .....	16%
Fiction .....	20%
	100%

2. Periodicals: (15% of total library budget allocation).

## F. *Special Means for Earning Credit*

1. *Credit by examination.* In addition to granting credit toward high school graduation on the basis of length of time devoted to a course, a school may grant credit on a qualitative basis through the administration of approved examinations. These examinations should cover the content ordinarily included in a regular high school course in the subject. A school desiring to grant credit on this basis shall submit its proposed plan and examinations to its State Committee for approval.

2. *Admission and placement of pupils by examination.* Examinations may be used as a basis for the admission and placement of pupils desiring to enter a member school with educational experience for which regular transcripts of credit are not available. A school desiring to follow this procedure shall submit its proposed plan and examinations to its State Committee for approval.

3. *High school credit through military experiences.* Member schools may, in accordance with the established policies of their respective State Departments of Education, grant not more than four units of credit toward graduation for the following types of educational experiences received while in military service:

- United States Armed Forces Institute courses
- United States Armed Forces Institute subject examinations
- High school courses offered through USAFI by cooperating colleges and universities; Credit upon transfer from the school offering the course
- Marine Corps Institute courses
- Coast Guard Institute courses
- Basic or recruit training: accepted in lieu of required courses in physical education and health
- Service school training.

4. *High school credit through extension and correspondence study.* Member second-

ary schools may accept credit earned by a pupil through correspondence or extension study toward satisfying the requirements for graduation. Such credit shall be earned through the satisfactory completion of courses offered by a college or university extension division accredited by the North Central Association or some other regional accrediting association.

A maximum of four units of such credit may be counted except for adult or physically handicapped students and for students residing in places where an accredited high school is not accessible for resident study.

5. *High school credit for summer school study.* Member secondary schools may offer summer school courses for credit or accept summer school credit earned by a pupil in some other accredited high school. If a school operates a summer school, the courses offered shall be under the instruction of teachers and the supervision of administrators who meet North Central Association standards. Each class must meet for 120 clock hours for one unit of credit or 60 clock hours for one-half unit of credit.

6. Some credit toward an equivalency certificate may be awarded on the basis of General Educational Development tests in accordance with provisions approved by the State Committee. (See Section III-G)

## G. *Equivalency Certificates Based on General Educational Development Tests*

1. Diplomas or Certificates of Equivalency of High School Graduation will be recognized by the Association only when they are issued by or on the authority of a State Department of Public Instruction. Such diplomas or certificates should not indicate graduation from any particular high school.

2. If it awards the Diploma or Certificate of Equivalency of High School Graduation, the Association recommends that a State Department of Public Instruction follow the recommendations and procedures outlined in *A Guide to the Evaluation of Educational Experiences*, in

*the Armed Services*, American Council on Education, 363 Administration Building (W), Urbana, Illinois.

#### H. *Transfer of Professional Personnel*

Teachers and other professional personnel in school systems having two or more member high schools who are transferred

from one school to another and who have been previously approved by the Commission will continue to be approved if they are assigned to the same teaching fields or professional duties. In the case of older teachers who may not have been fully qualified, the administration should encourage them to continue their educational preparation.

## SUMMARY OF STATISTICAL INFORMATION FOR SECONDARY SCHOOLS ACCREDITED BY THE ASSOCIATION FOR THE SCHOOL YEAR 1960-61

THE DATA PRESENTED in the tables which follow were compiled from the Annual Report on Regulations (Forms A and B) submitted by each member school and summarized by each state chairman. The final compilation was completed in the office of the Executive Secretary. These data indicate conditions as they existed at the close of the first month of the 1960-61 school year and reveal trends in the more significant items included in the Annual Report. Compilations are given for the nineteen states and the Dependents' Schools. For comparison, the totals for the preceding five years, where comparable, are shown at the bottom of each table.

Following the Annual Meeting in March, 1961, the number of member schools accredited by the Association rose to 3600, an increase of 20 over the previous year. Sixty were Dependents' Schools, maintained by the Armed Services for the dependents of military and civilian personnel in foreign countries. In 1959-60, there were 674 six-year high schools and in 1960-61 there were 623—a decrease of 51. The four-year high schools lost 53; the three-year high schools increased by 62; and schools organized on other plans showed an increase of 78.

The pupil enrollment increased by 56,247 to a total of 2,279,380. This is the largest number ever reported. Included in this figure are 1,146,097 girls and 1,133,283 boys. When enrollment in the separate grades is examined, we find a slight decrease in grades 7 and 11, but a substantial increase in each of the other four

grades. The boys outnumber the girls in grades 7, 8, 9, 10 and 11, but the girls outnumber the boys in grade 12. The number of post-graduate students decreased from 7493 to 7342. The average size of a North Central high school continues to climb. The figure for 1959-60 was 633.1; for 1960-61, it was 642.2, a gain of 9 over the previous year.

The number of pupils graduated in 1960 (the report for 1960-61 gives the graduates of the previous year) was 496,992, an increase of 65,499. Of the total number graduating 255,677 were girls and 241,315 were boys.

There was a decrease of 185 in the number of full-time librarians employed and a decrease of 185 in the number of part-time librarians. The number of librarians and assistant librarians with 15 or more semester hours of credit in library science was 3319 and the number that failed to meet the requirements was 535.

The teacher load, as reflected in the pupil-teacher ratio, continues to improve. The schools with a pupil-teacher load of 20 or less increased by 541; at the same time those with a load of 20.1 to 30 decreased by 2; and those with a ratio of more than 30 decreased from 29 to 5.

The number of teachers without Bachelors' degrees decreased by 49 over last year—370 in 1959-60; 321 in 1960-61. The number with Bachelor's degrees in 1959-60 was 17,130; for 1960-61—17,076, a decrease of 54. During that same period the number holding Master's degrees increased from 6010 to 6291, a gain of 281 and the number with Doctor's degrees

increased from 114 to 188, a gain of 34.

The number deficient in professional training increased from 692 to 755, a gain of 63, and those with inadequate preparation in their respective teaching fields in-

creased from 830 to 921, a difference of 91.

In 1959-60, there were 23,614 teachers new to their positions and in 1960-61—23,834.

# The Constitution of the Association\*

---

## ARTICLE I. NAME

The name of this Association shall be the North Central Association of Colleges and Secondary Schools.

## ARTICLE II. OBJECT

The object of the Association shall be the development and maintenance of high standards of excellence for universities, colleges, and secondary schools, the continued improvement of the educational program and the effectiveness of instruction on secondary and college levels through a scientific and professional approach to the solution of educational problems, the establishment of cooperative relationships between the secondary schools and colleges and universities within the territory of the Association, and the maintenance of effective working relationships with other educational organizations and accrediting agencies.

## ARTICLE III. TERRITORY AND MEMBERSHIP

*Section 1.* The territory of the Association shall consist of the states of Arizona, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, West Virginia, Wisconsin, and Wyoming and/or such areas as may be hereafter included. Territory shall be excluded from or included within the jurisdiction of the Association only upon the recommendation of the Executive Committee and by the vote of the Association. The recommendation of the Executive Committee shall be based on substantial evidence indicating that the action recommended represents the desire of the universities, colleges, and secondary schools of the territory concerned.

\* As amended at the 1961 Annual Meeting of the Association.

*Section 2.* The membership of the Association shall consist of three classes: (1) universities, colleges, and secondary schools; (2) officers of the Association and members of the Commissions; and (3) honorary members. Only members of Class 1 are eligible to vote at official meetings of the Association.

It shall be understood that membership in the Association for universities, colleges, and secondary schools is purely voluntary. Although all decisions of the Association bearing on the policy and management of universities, colleges, and secondary schools are advisory in character, it shall be understood that the Association has the right to establish requirements for membership, to develop and establish criteria for the evaluation of universities, colleges, and secondary schools, and to establish and maintain all regulations and conditions for continued membership in the Association.

*Section 3.* Any university, college, or secondary school which has been approved by the Association shall be admitted to membership on the payment of the annual dues. Such membership shall cease if at any time the university, college, or secondary school resigns or is dropped from the approved list of the Association or if the annual dues are more than one year in arrears. Any lapse in membership shall date from July 1 next succeeding the Annual Meeting at which time action was taken to drop the member university, college, or secondary school in question.

*Section 4.* All individuals holding membership on commissions of the Association or serving as elected officers of the Association shall thereby become members of the Association.

*Section 5.* Honorary members shall be nominated by the Executive Committee and elected by the Association by a two-thirds vote of all members present and

voting at any session of the Association held during the Annual Meeting. Such individuals are honorary members of the Association and not honorary members of any particular commission.

*Section 6.* Honorary members shall receive the NORTH CENTRAL ASSOCIATION QUARTERLY and shall have all the privileges of membership in the Association except voting.

*Section 7.* Honorary members, officers of the Association, and members of the commissions shall not be required to pay dues as hereinafter defined.

*Section 8.* Members of the Association, honorary members, individuals officially connected with a university, college, or secondary school which holds membership in the Association, and individuals who are officially connected with the state department of public instruction of a state which is included in the territory of the Association shall have the right to attend the meetings and to participate in the activities of the Association and of the various commissions. It shall be understood, however, that attendance at such meetings and participation therein shall be in accordance with the provisions of this constitution and also with the policies adopted by the various commissions and by the Executive Committee.

#### ARTICLE IV. OFFICERS, COMMISSIONS, AND COMMITTEES

*Section 1.* The officers of the Association shall be a president, a vice president, a secretary, and a treasurer. The president and vice president shall be elected at the Annual Meeting of the Association for a single term of one year or until their successors are elected. The secretary and the treasurer shall be appointed by the Executive Committee. Their terms of office shall be determined by the Executive Committee.

All officers of the Association and of the commissions shall be officially and actively connected with a university, college, or secondary school which holds membership in the Association or with

the state department of education of a state in the territory of the Association as defined in Article III, Section 1.

*Section 2.* There shall be an Executive Committee, a Commission on Colleges and Universities, a Commission on Secondary Schools, and a Commission on Research and Service, and these shall be constituted as hereinafter defined.

The Executive Committee and the various commissions of the Association shall, within the limitations imposed by the constitution of the Association, have the right to determine their own procedures and to establish rules and regulations for governing such procedures.

#### *Section 3. The Executive Committee.*

The Executive Committee of the North Central Association of Colleges and Secondary Schools shall consist of the president, the vice president, the president of the Association during the preceeding year, the treasurer *ex officio* and without vote, the editor of THE QUARTERLY *ex officio* and without vote, the chairman and the secretary of each of the Commissions provided for in Article IV, Section 2, provided that when the secretary of a commission is paid he shall be *ex officio* and without vote. In addition each Commission shall elect two members for terms of four years and when there is a paid secretary without vote the Commission shall also elect a third member for a four-year term. Each Commission shall determine the method of election of its members of the Executive Committee. The Executive Committee shall determine the dates of the beginning of the terms so as to maintain a sequence of four-year terms, with two new members each year and a smooth transition from the present membership to the new. Qualifications for membership on the Executive Committee shall be the same as prescribed for officers of the Association in Article IV, Section 1.

The Executive Committee shall receive from the Commission on Colleges and Universities the list of colleges and universities recommended for membership in the Association, shall receive from the Commission on Secondary Schools the list of secondary schools recommended for membership in the Association, and shall submit them to the Association for final approval. It shall publish in the official organ of the Association, the NORTH CENTRAL ASSOCIATION QUARTERLY, the lists of universities, colleges, and secondary schools approved by the Association.

The Executive Committee shall have final authority to hear appeals from the decisions of the commissions, relative to the approval of universities, colleges and secondary schools and to determine the action to be taken upon such appeals.

The Executive Committee shall be under no obligation to a member university, college, or secondary school to consider any appeal from the decision or action taken by a commission unless such appeal is filed with the Executive Committee within thirty days following the Annual Meeting. Before taking final action on an appeal, the Executive Committee shall request the officers of the commission concerned to make a recommendation and to submit therewith all facts pertinent to the case.

The Executive Committee shall submit to the Association for election those persons nominated by the respective commissions for membership therein in accordance with the provisions of the constitution.

The Executive Committee shall determine the time and place of the Annual Meeting of the Association, prepare the programs for the meetings of the Association, approve all programs for the meetings of the various commissions, provide for the publication of reports and proceedings, and transact any necessary business. The Executive Committee shall also fill all interim vacancies in the offices of the Association, and upon recommendation of the commissions concerned shall fill interim vacancies in the membership of the various commissions.

It shall be the duty and responsibility of the Executive Committee to coordinate and publicize the work of the various commissions in such ways as to further most effectively the object of the Association.

The Executive Committee shall have the power to authorize and approve all expenditures of funds and to require each commission to submit it to a budget. The proposed budget submitted by each commission to the Executive Committee for approval shall be a complete forecast em-

bracing (1) the program of activities, (2) the estimated receipts together with their sources, and (3) the estimated expenditure necessary to carry out the work of the commission. It shall be the duty and responsibility of the Executive Committee to approve or disapprove in advance of any commitments the proposed program of activities of each commission.

At each Annual Meeting the Executive Committee shall submit to the Association a detailed report of income and expenditures. At the close of the fiscal year the Executive Committee shall require an official audit of all Association Accounts to be made by an auditor selected by the treasurer and approved by the Executive Committee. The audited report shall be published in the NORTH CENTRAL ASSOCIATION QUARTERLY.

All actions taken by the Executive Committee shall be subject to approval or revision by the Association with the exception of actions taken relative to those matters over which the Executive Committee has been given final authority.

#### *Section 4. The Commission on Colleges and Universities.*

The member colleges and universities of the Association shall be grouped according to geographic districts, the number and boundaries of the districts to be determined by the Commission. Also, the member colleges and universities shall be grouped by type of institution, the basis for the grouping to be determined by the Commission.

The Commission on Colleges and Universities shall consist of representatives of member colleges and universities elected by the Commission subject to the approval of the Association, and three representatives designated by the Commission on Secondary Schools from the membership of the Commission on Secondary Schools. Election of members of the Commission shall be in accordance with a formula adopted by the Commission which shall provide for representation by district and by type of institution. Election shall be for a period of four years, one-fourth of the members to be elected annually.

Members shall not be eligible for reelection until one year has elapsed, except in the case of a member of the Executive Board who shall continue on the Commission as an added member until the expiration of his term on the Board.

The officers of the Commission on Colleges and Universities shall be a chairman, a vice chairman, and a secretary. These officers shall be elected by the Commission in accordance with its own policies and regulations. The length of term for each officer shall be determined by the Commission.

There shall be an Executive Board whose membership shall consist of the chairman of the Commission, *ex officio* chairman of the Executive Board; vice-chairman of the Commission, *ex officio* vice-chairman; and seven members of the Commission to be elected by the Commission for overlapping terms of five years each. Upon the expiration of this term no member may succeed himself. If a person who is not a member of the Commission is elected to the Executive Board he shall automatically become a member of the Commission upon election to the Board.

The Commission shall prepare a statement of policy to guide member colleges and universities and also colleges and universities seeking approval by the Association, which statement of policy shall be submitted by the Executive Committee to the Association for approval or rejection; shall receive and consider applications and reports from colleges and universities within the territory seeking approval for membership in the Association; shall make such examinations and surveys of these colleges and universities as it deems necessary; shall make examinations or surveys of member colleges and universities as conditions may require; shall request periodic reports from member colleges and universities; shall prepare a list of colleges and universities recommended by the Commission for accrediting by the Association; shall submit this list to the Executive Committee for submission to the Association for final approval; shall submit to the Executive Committee for

final approval by the Association the list of individuals elected to membership on the Commission; shall submit its proposed budget to the Executive Committee for approval; and shall make and publish studies of educational problems approved by the Executive Committee; and, most importantly, shall assist colleges and universities in the territory served by the Association in their efforts to strengthen their programs.

During the interval between the Annual Meetings of the Association, the Executive Board shall have the authority to carry on the necessary business of the Commission on Colleges and Universities.

#### *Section 5. The Commission on Secondary Schools.*

The Commission on Secondary Schools shall be constituted and operated as described in this section of the Constitution of the Association and in the Rules of Procedure of the Commission.

1. The Commission on Secondary Schools shall include the following groups:
  - a. All members of the several State Committees on Secondary Schools
  - b. All members of the Members-at-Large Group
  - c. All members of the Administrative Committee

Members of these groups shall be elected or appointed to office and serve in the manner described in the Rules of Procedure of this Commission.
2. The officers of the Commission on Secondary Schools shall be as follows:
  - a. Chairman
  - b. Vice-Chairman
  - c. Past-Chairman
  - d. Executive Secretary (employed, non-voting; or not employed, voting)

The manner of election, duties, and terms of office shall conform to the specifications set up in the Rules of Procedure of this Commission.

3. The interim executive committee of the Commission on Secondary Schools

shall be known as *The Administrative Committee of the Commission on Secondary Schools*. The membership, manner of election or appointment, duties, and term of office, shall conform to the provisions of the Rules of Procedure of the Commission dealing with this section of the Constitution.

4. The business of the Commission within the several states shall be carried on between annual meetings by State Committees. These committees shall be assisted by State Advisory Committees. The manner of election or appointment, tenure of office, and responsibility of committee members shall be as set forth in the Rules of Procedure of this Commission.
5. There shall be a Members-at-Large Group in the Commission on Secondary Schools. The election or appointment, tenure of office, and responsibility of the members of this group shall be as set forth in the Rules of Procedure of this Commission.
6. The Nominating Committee of the Commission on Secondary Schools shall be elected by the Administrative Committee at its June meeting. The duties and procedures of this committee shall be those set forth in the Rules of Procedure of this Commission.
7. The Commission on Secondary Schools shall be represented on the Executive Committee of the North Central Association of Colleges and Secondary Schools in the manner specified in Article IV, Section 3, of the Constitution of the Association. The manner of election or appointment of such representatives and their responsibilities shall be as set forth in the Rules of Procedure of this Commission.
8. Special or Standing Committees may be elected or appointed by the several administrative units of this Commission as the need arises.

## 9. The Annual Business Meeting

### a. Admission

Official delegates of all member schools shall be admitted to business sessions of the Commission on Secondary Schools but shall not have the right to vote unless they are members of the Commission. However, at the call of the Administrative Committee, special executive sessions of the Commission on Secondary Schools may be convened to deal with matters of emergency and/or necessity.

### b. All members of the Commission shall have the right of ballot.

### c. Election of officers and representatives of the Commission on Secondary Schools shall be held at the annual meeting, except that Members of State Committees, State Advisory Committees, and the Members-at-Large Group of the Commission on Secondary Schools shall be elected within the several states.

### d. The Commission shall consider and sit upon such other business as may legitimately come before it.

## 10. Referendum votes on all matters requiring such votes shall be conducted by mail.

## *Section 6. The Commission on Research and Service.*

The Commission on Research and Service shall consist of twenty-four persons; twelve from member colleges and universities and twelve from member secondary schools. There shall be elected by the Commission subject to the approval of the Association for a period of three years, four members of each group to be elected annually. No member of this Commission shall serve for more than two consecutive three-year terms.

The officers of the Commission on Research and Service shall be a chairman, a vice-chairman, and a secretary. These officers shall be elected by the Commission in accordance with its own policies and regu-

lations, but subject to the limitations imposed by the constitution. All officers of the Commission shall be selected from among those who are members of the Commission, and it shall be understood that the term of each officer shall not extend beyond the date of the expiration of his term as a member of the Commission.

There shall be a Steering Committee whose membership shall be determined by the Commission in accordance with its own policies and regulations.

The Commission on Research and Service shall initiate, plan, and carry forward studies in the fields of educational and institutional research and service pertaining to universities, colleges, and secondary schools, subject to the approval of the Executive Committee; shall, subject to the approval of the Executive Committee, engage in such research, study, and activity as either of the other commissions may request; shall engage in such research, study, and activity as the Executive Committee may request; shall report its findings to the appropriate commission or commissions and to the Association, as directed by the Executive Committee; shall submit its proposed budget to the Executive Committee for approval; shall submit to the Executive Committee for final approval by the Association the list of individuals elected to membership by the Commission; and shall furnish leadership in interpreting its research findings and in focusing attention on those problems which are in need of consideration.

During the interval between the Annual Meetings of the Association, the necessary work and business of the Commission on Research and Service shall be administered by a committee consisting of the officers of the Commission.

*Section 7. Nominating Committee.*

Prior to each Annual Meeting of the Association, the president shall appoint subject to the approval of the Executive Committee, a committee of five persons whose duty it shall be to nominate properly qualified persons for election to the offices of president and vice president, to membership on the Executive Committee

and to any office not elsewhere provided for by the constitution. The announcement of these nominations shall be made during the first session of the Association held during the Annual Meeting, but election shall take place during a later session. Independent nominations may be made upon the written petition of any ten persons who are members of the Association or official representatives of member institutions. The list of persons so nominated shall be filed with the secretary of the Association not later than twelve hours prior to the opening of the session during which the election of officers is to take place.

ARTICLE V. MEETINGS

There shall be an Annual Meeting of the Association at such time and place as may be determined by the Executive Committee and approved by the Association. Meetings of the various commissions shall be held during the week of the Annual Meeting of the Association. Other meetings of the Association and/or other meetings of any commission may be held when such meetings are authorized by the Executive Committee and approved by the Association.

ARTICLE VI. FEES

An annual fee shall be paid by each member university, college, and secondary school. The amount of the fee shall be fixed by the Executive Committee, subject to the approval of the Association.

Member universities, colleges and secondary schools are entitled to have the services of the Association and to receive the NORTH CENTRAL ASSOCIATION QUARTERLY and/or such other publications as may be authorized for distribution.

ARTICLE VII. THE RIGHT TO VOTE

*Section 1.* Only members of a commission shall have the right to vote at official meetings of the commission of which they are members.

*Section 2.* All votes at official meetings of the Association shall be by member uni-

universities, colleges and secondary schools. Each member university, college, and secondary school shall have only one vote on any question before the Association, and this vote shall be cast by an officially designated representative.

#### ARTICLE VIII. QUORUM

Fifty voting members of the Association shall constitute a quorum for conducting business at any official meeting of the Association.

#### ARTICLE IX. AMENDMENT

This constitution may be amended by

a three-fourths vote of the voting members at any official meeting of the Association, providing that a printed notice of any proposed amendments has been sent to each individual who is a member of the Association and to each member university, college, and secondary school at least two weeks prior to the date of said meeting.

#### ARTICLE X. PROCEDURE

Parliamentary procedure in all meetings of the Association and of the commissions shall be in accordance with *Robert's Rules of Order*.
